### **MASS BURIAL OF UNIDENTIFIED DEAD BODIES**

The Ghana Police Hospital will embark on a mass burial for about one hundred and twenty (120) unidentified and unclaimed bodies as part of routine measures to decongest the hospital mortuary.

These unidentified and unclaimed dead bodies are made up of mostly paupers, unknown former patients, abandoned dead bodies, unidentified accident and crime victims.

The general public is hereby being informed to contact the Pathology Department of the Ghana Police Hospital for identification of the persons who might have not been seen for some time as part of the search. This is to avert a situation whereby such bodies are added to those earmarked for the mass burial after twenty-one (21) days from this announcement.

Members of the general public are also hereby encouraged to acquire the habit of always having their National Identification Cards or that of any organization on them to help police and others easily identify them whenever they are in any health crises or involved in an accident.
